Common functions for B-505 / 503 / 500

A built-in coil spring always keeps the handle folded when not in use. (The photo shows B-505.)

A rotary catch keeps the top securely engaged with the bottom and offers a high water resistance. A lock can also be attached. (The photo shows B-505.)

The aluminum frame has gasket inserts to keep water and dust out. (The photo shows B-503.)
