Broken tip tap removal tool set

PTS-1700S

PTS-1500S

- Features**
- A tool that easily removes the bent tap without damaging the ridge when the middle of the tap bend.
 - Since the claw uses a special steel wire, it has a high twisting strength and does not easily break, so you can easily remove the bent tap that is firmly lodged in.
 - In the unlikely event that the claw is damaged, it can still be used many times until it becomes short. Moreover, since it can be easily exchanged with the replacement claw, it is very economical.
 - Exclusive for hand tap.
- Use**
- To extract the broken hand tap.
- Materials**
- Medium Carbon Steel (S45C)
- Origin**
- Japan

Warning

- Cannot be used for spiral pointed-tap, jet tap, pointed-tap.
