

## Cylinder liner puller set

Set for extracting cylinder liners.

# K-16

K-16

### Description

- Three expansion elements guarantee optimal adaptation of the internal extractor to the respective application.
- The counter support nuts' friction resistance is reduced to a minimum as a result of the built-in pressure bearing.
- With their support struts, the counter supports are particularly suited for large cylinder liners and ball bearings, etc., and ensure that the assembly remains stable during the extraction process.
- Mechanical pressure screw.
- Milled thread treated with special coating.

### Advantage

- Almost all components available as replacement parts, time-saving order process thanks to numbering system.
- Complete easy-to-manage package.
- KUKKO-L-Boxx-System compatible with systems by all common manufacturers.

## Set of thread inserts

# 22-1-AS

### Description

- For removing parts with centric threaded holes.
- Use of the threaded inserts in combination with slide hammers or counter supports.

### Advantage

- Almost all components available as replacement parts, time-saving order process thanks to numbering system.

Art.-No.

## Sets of slide hammers in case

For extracting bushings and components with threads (dowel-pins, parallel-keys, bolts, etc.).

# KS-22

KS-22-01  
KS-22-02

### Description

- KUKKO screw adapters can be combined with counter supports and slide hammers.
- Milled thread treated with special coating.
- Secure storage in special foam.

### Advantage

- Practical package for universal use.
- Almost all components available as replacement parts, time-saving order process thanks to numbering system.
- Complete easy-to-manage package.
- Clean and convenient storage in the plastic case.

## Extractor for parts with tapholes

# 223

### Description

- KUKKO thread inserts can be combined with counter supports and slide hammers.

### Advantage

- Almost all components available as replacement parts, time-saving order process thanks to numbering system.
