

■ indicates the number of contacts. The conductor cross sectional area is less than the following value.

Shell size	Number of Contacts	1	2
14	Contact arrangement <When viewed from the pin (male) contact coupling side>		
	Safety standard	—	
	Rating	125V 5A	
	Limit operating voltage (Note-1)	200V	
	Withstand voltage ( V r.m.s. )	1,000	
	Wire size ( mm <sup>2</sup> )	0.75	

Note-1 : For the limit operating voltage, see p.131.
